

## SC18 Turf Cutter

One of the market's most user-friendly and advanced turf cutters in its class. 4-wheel drive for easy handling and maximum accessibility and stability.

Rugged construction, powerful Honda engine, accessible controls, automatic blade start and anti-vibration handle results in work with both precision and effectiveness.

### Low centre of gravity

Very low center of gravity for optimal stability and accessibility, even on slopes.

### Honda GX-engine

High-spec Honda engine. Powerful and easy to start.

### Flexible gears and speed

Four forward gears, two cutting speeds, two transport speeds and a reverse gear.

### All-wheel drive

All-wheel drive ensuring easier and safer accessibility on slopes and transport ramps with gradients of up to 30°.

### Handily located controls

Easy-accessible controls with automatic blade engagement and vibration-dampened handles.

### Working depth adjustment

Knob for adjustment of working depth.

## Technical data

### Engine

Engine manufacturer	Honda / GX 160 OHV
Power	5.5 hp / 4.0 kW
Cylinder displacement	163 / 9.9 cu.inch
Cooling	air
Air filter	Two-stage
Oil type	SAE 10W-30
Oil capacity	0.14 gallon / 0.53l
Fuel, minimum	86 octane
Fuel tank capacity	0.95 gallon / 3.6l
Spark plug	NGK BPR6ES

### Transmission

Transmission manufacturer	Honda
Gear reduction	1:2
Gears, forward+reverse	4+1
Chassis construction	steel

### Productivity

Tyre size, front/rear	10 / 10"
4-wheel drive	yes

## Advantages

- Robust design**  
 Robust design for demanding, professional use.
- High-specified components**  
 High-spec components ensure a long service life in demanding conditions.
- Long life bearings**  
 Sealed, permanently lubricated and self-adjusting bearings provide reliability and long life.

**Equipment**

Working depth	60 mm / 2.4"
Working width	46 cm / 18"
Height adjustment	yes
Insulated handle	yes
Handle	anti-vibration

**Ergonomics****Overall dimensions**

Product size, LxWxH	137x61x91 cm
Weight	331 lbs / 149 kg
